

## Year 7 History summer task

Create a project on your favourite historical period. This could be something you have already studied in primary school, something you are interested in already or something you would like to know more about.

The project should have the following sections:

1. A timeline with key events and dates from the period
2. Detailed information about ONE of these events: What happened? Why? What happened afterwards?
3. A fact-file about a key person from the period
4. An explanation of why you chose this period. Why is it interesting? Why is it important?

Examples you might choose (though you are free to pick any period you like)

- The Victorians
- The Tudors
- The Romans
- The Greeks
- The Egyptians
