

Science

KS2 key words

Most of the key words in this booklet have been covered in KS2 Science. Try to remember/find out what each of them mean and bring it to your first Science lesson in September. We recommend you spend about 1 hour on it over the summer. Don't worry if you can't finish all of it. You will be able to continue working on it over the course of Year 7.

If you don't know what the words mean, use the following resources to help you write really good definitions:

- 1) The internet
- 2) Friends and family
- 3) Your local library

Key Words in KS2 Biology

Living Things: Animals and ecosystems

Food chain	
Carnivore	
Organism	
Producer	
Secondary producer	
Tertiary producer	
Herbivore	
Food web	

Camouflage	
Adapt	
Predators	
Prey	
Consumer	
Habitat	
Primary consumer	
Secondary consumer	
Ecosystem	
Species	

Key Words in KS2 Chemistry

Materials and their Properties

Materials	
Properties	
Filtration	
Insoluble	
Dissolve	
Soluble	
Filtration	
Evaporation	
Water vapour	
Condensation	
Reversible change	
Irreversible change	
Conductor	
Insulator	
Thermal conductor	
Thermal insulator	
Impermeable	
Permeable	

Key Words in KS2 Physics

Physical Processes

Gravity	
Mass	
Friction	
Electricity	
Mains electricity	
Battery	
Current	
Vibration	

Orbits	
Pole	
Repel	
Source of light	
Reflected	
Shadow	
Attract	
Magnetic	
Air Resistance
