AQA GCSE Product Design &/ or NCFE Technical Award Engineering- Y10

Dear Parent/Carer

Your son/daughter has been enrolled on either the AQA GCSE Product Design and /or NCFE Technical Award Engineering course. The courses comprise of coursework and an exam element. We aim to make each course exciting and engaging by using a range of modern/smart materials, industry standard software/equipment and regular engagement from industry experts.

I am writing to request a voluntary contribution to help sustain the resources and input mentioned above. If your son/daughter is taking both subjects then only one contrition is needed.

A sum of £10.50 will help to contribute to meeting the costs of this course. If you would like to discuss any aspect of this matter please do not hesitate to contact me. We are also giving the students the opportunity to purchase the GCSE revision guide for Product Design which, through school, is at a reduced cost. This guide contains theory and practice questions and answers.

All payments should be made online – we no longer accept cash or cheques – you should have received a letter giving details and a pupil link code. If not, please contact the Finance Office by email on finance@wellswaymat.com

May I take this opportunity to thank you for your assistance in helping us to enrich students' experience.

Yours faithfully

R Shand
Curriculum Team Leader for Design and Technology
